Dear Parents and Carers,

We are excited to tell you about our first Science Day of the year, which is taking place on Wednesday 29th of November. On this day, we are going to celebrate the theme that was explored in World Science Day: 'Wellbeing and Science'. As part of this, we will explore a range of careers in science that will impact wellbeing.

Each year group will spend the day focusing on a different career. They will be planning and conducting investigations based on that role and the findings from each year group will be celebrated in a whole school assembly at the end of the day.

Nursery	Hairdresser
Reception	Dentist
Year 1	Veterinarian
Year 2	Personal trainer
Year 3	Gardener
Year 4	Nutritionist
Year 5	Electrician
Year 6	Optician

In addition to this, we will be holding 2 competitions throughout the day and the winners will be announced in the celebration assembly the following week.

The first competition is to dress up according to the theme 'What does Science look like to you?'. You could dress up as one of the careers mentioned above, or something else that you think represents Science. Each year group will have one winner and the prize will be awarded to the pupil with the most creative and unique outfit.

The second competition can be completed at home, details will be set on SeeSaw on the w/c 20th November. The prizes and winners will be announced in the whole school celebration assembly.

We are excited to celebrate World Science Day as a school, and thank you for your continued support.
Yours sincerely,

Miss F Jamil
Science Subject Leader

and

Miss S Joyce
Science Subject Leader
