

Jack Hunt Sports Partnership

Multi Skills Festivals Spring Term 2014

Over a four week period 500 students in Years 1 and 2 from across the Jack Hunt Sports Partnership attended a range of Multi Skills Festivals. These Multi Skills Festivals focussed on the basic fundamentals of agility, balance and coordination allowing students to participate in a range of fun games and activities alongside children from other primary schools.

Primary PE Co-ordinator Tim Smith commented:

"We are really pleased with the response we have had from schools bringing so many students to the Multi Skills Festivals this year. They get so much out of working with our Sports Leaders. We are already planning to run the Festivals again next year. It was great to have the young leaders help to run the event. Both the Level 2 and 3 Sports Leaders are required to plan, organise and deliver sports festivals for younger children. They develop a different range of skills when working with younger children. It's great to see the primary students really interact with the older students. A highlight had to be the Cha Cha Slide that the Sports Leaders led to all primary students for a warm up".
